Dedication

Although we would like to, we cannot say you have followed us throughout our high school years, because up until recently, we did not exist in your mind. With pride, however, we can now say you have given each of us the correct dosage of love, patience, and understanding to help us through our toughest times. Senior year was just that much better knowing you were always there for us, no matter the situation: college, school, home, relationships- anything! And we would like to thank you, and dedicate this book of wonderful memories to you, for all you have done and the time you have put in for us.

Ms. Yuson

Thanks.

Your care, love, and motivation compels us to succeed. Being a mentor, listening when others wouldn't, and sharing countless laughs isn't in your job description, but for some reason, you did it anyway. You rose to the occasion to make sure we did our best, when others would have given up in a split second. You motivated us to strive until we no longer could. Your teaching methods are somewhat unorthodox, but at the same time, unforgettable. You made it possible to laugh and learn at the same time, and for that, we thank you.

Mr. Viteri

We love you.

Administration

Christine Taylor
Principal

As I reflected on the past four years of the graduating class of 2008 in preparation for this yearbook message, I was struck by the many successes you have achieved. I am proud of your accomplishments and have always marveled at your level of commitment.

Throughout your years at Science, it has been our primary objective to help you grow into aware, compassionate, and responsible citizens. Our emphasis has always been to promote and develop the necessary learning skills that you will need in your daily lives and in your pursuit of personal success and happiness.

With the help of your dedicated teachers, you have accomplished much, but you are not finished. The race is not over. Education is a life-long process. Challenges await you, and you will meet them and succeed if you utilize your gifts and talents.

Graduates, the prize in all of your futures glistens on the horizon. Extend your reach and grasp it. And whenever you see a noble object worth having- in the words of the great statesman, Winston Churchill- never give in, never, never, never...

PeP RaLIY

Since our first Science High Pep Rally in '05, the class of '08 has been showing class pride! And yes, we did rep for freshmen... a very long time ago!

'08 DON'T HATE

PeP RaLIY 07'

2008

After four years of pep rallies, we finally get to wear our Blue And Gold! Go Science Chargers!

Here's to being missed...

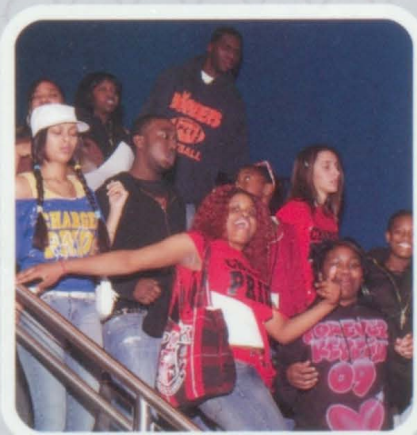

Yes, it's cliché...

as much as we'll miss you

...but it's true.

Liana Abreu

Graduation is not the end, but the very beginning of your learning experience. Learn from these past years and dream of the future, but in the present remember to accomplish goals that you failed to do in the past but wished to see accomplished in the future. Everyones dream can become reality if they challenge themselves and work for their future in the present and amend their mistakes from the past. Good Luck in the Future class of 2008.

The past 4 years at Science Park High School have been amazing. My experiences have shaped the person I am today, and I am grateful for the opportunity to have formed these incredibly strong friendships with members of the Class of 2008. Special thanks to my teachers, track and basketball teammates, and coaches. Like Robert Southey said, "No distance of place or lapse of time can lessen the friendship of those who are thoroughly persuaded of each other's worth."

Alesia Alexander

What can I say? These past four years have definitely been the BEST, and I have all of my homies (lol) to thank for that. I LOVE U GUYS and thanks for the memories (tear, tear, and snuffle). These past four years have and will always mean a lot to me because they brought out the best and worst in me. But on another note to the Class of 2008 CONGRATULATIONS and I wish you all the best!

These years at Science High have been 4 of the best years of my life. I have grown and matured so much since the first day I walked into the building. But I would like to thank all the little people I had to step on to get to where I am today. Where would I be without you guys?! And I want to give a shout out to my family and friends.

...Smooches...

Fahim Anwari

These past 4 years have gone by so fast. High school is almost over but the end of one experience is the beginning of another. College will definitely be awesome and I hope I make friends as great as I did in this school. I'll miss everyone, but some more than others. Thank you everyone (including teachers) for making my high school experience so great and good luck to you all.

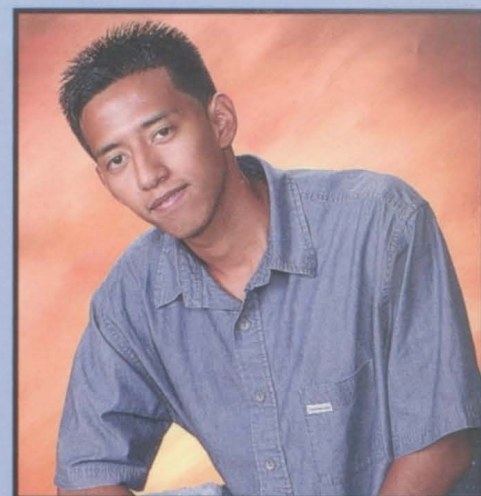

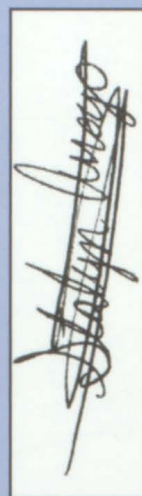

CLASS OF 0 SPANKIN 8 BABY!!!

Edwin Arroyo

During these unforgettable years, within old and new walls, I have learned how to love and hate, be happy and sad, and be with friends yet feel alone at the same time. Now, we embark to a new chapter of our lives, never forgetting the journey and triumphs we traveled. I will forever cherish the memories and the Class of '08. I have learned from you guys more than I have learned in classrooms because you guys taught me to live.

Stalyn Arroyo

Congrats to my fellow classmates who survive four years in one of the best public high school in the state! I hope you guys will remember our old, small school where we began and taught us that your economic status does not matter to succeed. Do not forget where we came from. I wish to thank my friends who supported me throughout the years. Another shoutout to the soccer team. We know who's the best soccer team in the city.

Raymon Azcona

I remember catching a firefly as a little kid and trying to keep it in my hands forever, eventually finding that for some things forever cannot exist; because hands also have to hold on to mothers to cross the street, or to pencils in school, and fireflies need space to grow, to fly, to glow, to be. Realizing this, I let the firefly go, never forgetting its shine, how it illuminated dark nights when other sources of light were hard to find. And in time, I discovered that I never let it escape my grasp. So on June 25, 2008, I'll open my hands, but I won't let go. Stay Gold.

Alexa Barrena

High school has been the best part of my life by far. Not only have I gained a lot of knowledge from teachers that I will never forget, but the best part is that I've made new friends and formed closer bonds with people who I hope will continue with me on my journey through college. Yes, our teenage years are soon to be gone, but this isn't the end, it's just the beginning of our lives.

Since I began my high school years its been a whole great experience for me starting from the friends I made to the teachers I met. I've enjoyed every second of my school years, and I'm glad of my choices and actions I have taken. I want to thank everyone who helped me reach my goal into taking my life to the next step and thanking the school for helping me get prepared for the future. SHS will be missed.

In life we're gonna leave a million things behind, but I hope all the close friendships I've made never get lost in the chaos of life. I'm not going to miss rushing to class at 8:00 am, all out of breath and panting. I am gonna miss sitting upstairs in the senior balcony with my peoples, screaming in the hallway, and pushing my friends into lockers. And, to my friends: I LUV U ALL!!!! ESPECIALLY, my HEARTS Di-Di & ALIS!!!!

Congrats to the Class of '08. We made it out. Good luck in the "real" world.

We had a lot of good laughs. Sometimes, I forgot I was in school... Other times, I noticed that I wasn't even there. I'll probably forget some of you, so if I remember you 20 years from now, know that you hold a special place in my heart.

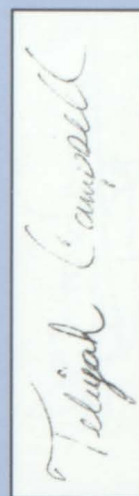

Stay high above the influence!

Mario Calvache

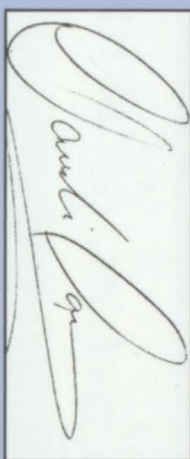

Looking back at my high school years is like looking back on a long voyage. A voyage filled of surprises and memories. Memories of performing in Grease and South Pacific, of the soccer team bus rides, to those crazy performances of the Andes Boyz at Open Mic Nites. Memories i will never forget. I would further like to thank my friends and the Science Park faculty for helping me keep my ship on its course. I will always remember the class of 08'. Andes Back Allright!!!

Wow, these four years went by way too fast. It feels like just yesterday when I was getting to know the section 2 freshmen class members, a section full of wonderful people I'll never forget. Certainly, they weren't the only special people I came across during this journey. I couldn't ask for a better graduating class even if I wanted to, the crazy moments, the tears, the new friendships, the laughter, it will remain in my heart forever. Of course, I can't forget to mention my girlyes, and my besties Jasmine, LeeSandra, Alis, Daisy and Teliyah. From the memories we made, to the "what ifs" in display,
I will always remember us holding hands.
The tears will disappear, but never the fear
of losing the strings in our dreams.
Not a good bye, but a mere farewell.
Not and adieu, but an outreach, see you then.
So this is what we are and this is what we became and
this is what we-- well, you know the rest.

We went from studying for tests to being yelled at by teachers; from an old school blowing dust out of books to a gigantic emporium where it's like studying in a mall. I thank SPHS for all of the opportunities they gave to me and great memories. I've been blessed to have been a part of Science, but now I have to be out! Good luck '08. Thanks for everything. Cuteee..It's crazy how these four years have blown right passed us. I've learned so much only with the aid of my friends, for those who have been there for me when ever I needed a shoulder to lay on. Freshman year was of regret because I didn't go to East Side. I am overjoyed to say that my Senior year I am able to look back at my high school experiences and smile. I smile at how many people have slipped down the stairs at Rector. I smile at how many times people have walked out of school and gone home instead of going to the "Y". I smile at all the imperfect, yet beautiful people I've met in the past four years, and especially smile at being late to class due to getting my grub on at the truck! Thank you to everyone who has loved, helped, and appreciated me.

I can't begin to tell you why I would forever be a Science Park Charger because you wouldn't understand. The explanation is made up of too many inside jokes, too many blond moments and too many memories that'll last a lifetime. I can say that as I walk through these halls, a feeling of being at home overcomes my soul. And as I try to remember my locker combination, I remember instead that I must go. Goodbye to my teachers, my teammates, and all the friends that I have made, and hello to whatever is yet to come.

Taqiyyah Gerald

Coming to Science has to be my best experience of my life. Meeting new friends and getting to know new teachers was complicated, but we made it to the end. I survived my toughest struggles here - from teachers I disliked to family issues. I wish everyone the best of luck in the future and I'll miss all my babies. I love you guys, especially my best-es!!!

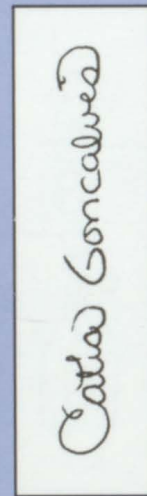

Samantha Golden

"Great." School is over and I'm "clearly" not ready to leave. A lot has changed since freshmen year. Sometimes, I can hardly believe the end is so near. For most of us this is where our paths diverge. Class of '08, I will truly miss all of you. I am glad to say that I have grown since freshmen year (not literally) and it is because of you all. Over the past four years, I have made lasting friendships and new comrades. Please keep in touch guys. "Peace out sons".

-Eleanor Roosevelt.

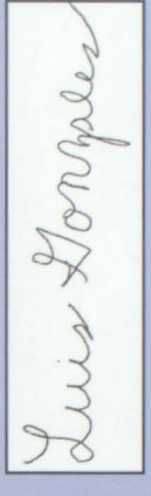

We've made it, Class of 08. Yet, our paths do not end here. I can't say goodbye, but I definitely wish everyone the best of luck. With the preparation we got here at Science, we're certainly ready for the next chapter of our lives. And when tomorrow comes, let's hope we've learned from yesterday.

Steven Goncalves

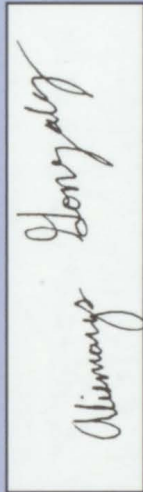

Someone once said life is not counted by how many breaths you take but by how many moments take your breath away. Truly these 4 years have had so many moments that took my breath away - from the pep rallies to the days that I skipped school with friends and just enjoyed the moment. Hopefully, my fellow classmates, acquaintances, and friends, you all enjoyed high school as much as I did.

Luis Gonzales

It's so hard to believe that we have all come so far. I say "we" because I couldn't have done it without the support of the class of 08. For the past four years I can honestly say that the days that have past have been the most memorable of my life. You all have had such an influence in my life that when I graduate I will have three things... A diploma...A love for knowledge... and a part of all of you for the rest of my life. Later...

Alismarys Gonzalez

I'll miss all you guys. I'll love you guys always and take care in college. Jasmine is the best but Jeilyn is better. Sorry. lol Just joking. Ess beats you all. Joking again. I love you guys forever. Special thanks to Luis, thank you.

Four years of unforgettable memories is what I'm holding on to after graduating from Science High School. High School has definitely had its ups and downs. Struggling to keep up the grades and yet trying to fit in with a new crowd has all been worth the trouble, because in the end, I'm leaving knowing I have gained so much from the friends I've made. It almost seemed like senior year would NEVER come, and now that it has, saying goodbye is harder than I thought. We all know nothing beats the experiences we had back at Rector! Walking through snow/rain to get to art, taking gym at the YMCA, sneaking out when we had the munchies to get food from Papi's truck. Best of luck to the class of 08!!!

Gloria Hernandez

I am sad to be leaving Science Park High School and having to close a wonderful chapter in my life. I am happy to be moving forward with my peers and excited to start new chapters which I know we will all be successful in. I wish everyone happiness, love, and strength. The best of luck to the best class of 2008! Love you!

Gibran Hussain

As I look back at the years past I can't help but realize how fast it has all come to an end. But in a way I'm glad; an old chapter closes yet a new and more exciting one opens. The only advice I have for the graduating Class of '08 is this: love life, have no regrets, and always do what makes you happy. Because in the end you will have no one to thank but yourself.

We endured through it all from young girls to college ladies. Jazz; thanks for the laughter and humility. Shan; thanks for the realness. Day-Day; for the consecutiveness. Keedia; for the time from the bridge program to the concession stand. And Julian; we just getting started.

And to my loving ladies of the Pep Squad; Keep it strong. Thanks for the memories and remember Dont cry because its over, smile because it happened.

Love you

The times we shared, the memories we created and the people I met will forever and always stay with me. I would like to thank all the people that have changed my life: my friends, teachers and especially my family. They were always there for me and always pushed me to do better. The past four years have been a blast for me and if I could do it all over again, I would not change a single thing.

I can't believe four years have passed so quickly. Time really does fly! Leaving behind this school is going to be tough, but the new journey we are heading off to is going to be amazing. All I hope for is that we don't lose ourselves in the process; that we don't forget who we are and where we came from wherever we go. Well, good luck Class of 08! Wish you the best of luck. Hopefully we'll see each other soon.

My high school years were filled with unforgettable memories, irreplaceable friendships, and cherished teachers. I would like to say a special thank you to Ms. Crocker who was one of my favorite teachers and who has helped me so much to reach my full potential as a writer. What can I say? I came to Science not knowing what to expect. I didn't know that High School would change my life forever. I would like to give a shout out to my boy Ricky, and someone I really grew to love, Nikita, I wish I would've known her from the start. Although she can be annoying sometimes, she's still cool and warm hearted. Science High has taught me a lot that I will keep forever.

It only takes a second to say hello. Why does it take forever to say goodbye? I can't believe it's finally time for us to grow up. Oh, yeah! Hooray for us...I will sincerely miss a bunch of you and be so glad to never see a few of you again (just kidding), but I wish EVERYONE the very best. Whatever you do in life, remember to follow your heart. To all my closest friends, this is not goodbye. I'll see you guys later...

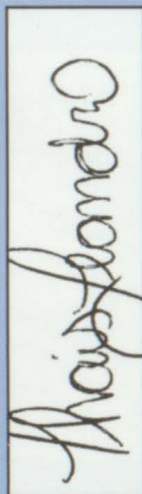

Ladina Lane

People will talk about you out of their own insecurity. But it's when they are silent, that you step back and say to yourself: "What's wrong with me today?" Always see yourself as a threat. To that person, you stand out. It's a uniqueness they're intimidated by. Thank you Coach Crocker, Johnson, and Hooper for molding and loving me. Kevy, mybff...life wouldn't be insane without you! You made everyday something to look forward to. For the rest of you, thanks for taking up space.

LoL. Good luck!

Adults forget the feeling of being a kid but expect a kid to remember to be an adult - how funny.

Remember those locker rooms that flooded when it rained too hard? Or even that beautiful glass stairway we were never supposed to use? Well some of my best memories were built there and I will forever carry them close to my heart. Others were made with the people I met there, the truest. Thank you. High school was a blast having you by my side & no words in the universe [scratch that] the galaxy can describe the wonderful and terrible times we've had together. The laughs, oh man what laughs! But we know it hasn't ended right? Good luck Class of '08- we deserve to have made it this far!

This is hard writing a good message with only 80 words about the four years of high school, two buildings we learned in, & of course the people that made my high school memories. A blurb isn't even enough let alone only 80 words. I hope everyone got the experience they wanted from high school, so we can finally move on to college. YEAAA. =] I want to thank all the people that helped me grow these past 4 years, My MOTHER, my ladies, my love, close friends, some teachers, and even the people I have lost along the way.

Good luck guys & don't forget where we came from, 40 Rector Street, our beloved beer factory.

They say that high school holds the best years of our
lives and I couldnt agree more.
For nothing, I'd trade the great friends and memories
made. All the stressful schoolwork, drama, he-said,
she-said gossip, petty arguments, the frustration and
pressure to do your best, to always give 110%, its all
very overwhelming but the laughter and cheer
throughout all the years surpasses everything else,
making it all worthwhile.

My first 2 ½ years at Science High were in an institute that appeared to be unsuitable for learning. This appearance was that of deception to those who could not see beyond the walls. It is a community full of individuals that I have grown to appreciate, respect, and love. So how do I say Goodbye? I don't. Instead I say hello to a successful future to the Class of 08. It'll never be another.

There are moments in our lives when we find ourselves at a crossroads. Afraid, confused, without a road map. The choices we make in those moments can define the rest of our days. Of course, when faced with the unknown, most of us prefer to turn around and go back. The person you want to be does exist, somewhere on the other side of hard work and faith and belief. And beyond heartache and fear of what lies ahead.

It's been four years of hard work and difficult times. With all these, we created several memories. Some good, and some that took us by surprise, but we learned something from all of them. I wouldn't change a thing about these past four years, our time together has been great and I'll never forget those people who truly made me who I am today. To all my loves, you know who you are I can't wait until the next chapter of our lives. And to the class of 08' congrats on making it this far, hope everyone the best of luck in the future.

These four years have been filled with experiences and memories that will last a lifetime: the old Science, the new one, amazing teachers, new friendships, laughs, and tears. We've been there for each other through it all and that's something I'll never forget. Fortunately, I've had an amazing family and great friends supporting me since day one and for that I'm so thankful. I wish the class of 08' the best of luck, and just know that all of you will always have a place in my heart. I'll miss you<3

What I'm trying to say is, I'm going to miss most of you guys- Class of '08. And I got to say thanks to my tree-hugging teachers and friends for always being there, for the good times and the bad. Especially, Claudia, Gab and Fred- It's been fun and out of control. But yeah, high school's over now, so see you around, ya dunces.

I did my best.

Well ya'll its about that time we part and say goodbye... Those four years in Science were fun while they lasted. I have to say that my most memorable years were my freshmen and sophomore years. I'll never forget those that were really there for me and apart of my life. Other than that Congrats to those who I hang with everyday. We did it ya'll! I did it all on my own, with no ones help! Yey me! lolz... But anyways, I'll never forget the laughs, the tears, but most of all the moments we all shared. To my dudey Michael W. I'm never going to forget you no matter what! Hehehe... And to Daniela, I'll never forget the talks we had in every class we were in. Most importantly to my family! you've pushed me to do what I have to and stay on my grind. Even though I messed up in the past you still loved me no matter what! I've learned so much from you guys and am proud to say that I am graduating class of 08' Science Park High! Love you mom dukes and my 2 brothers and sister.... 08'..... Whoop! Whoop!

WOW! 4 years have passed by so quickly. I wish the best for everybody and thank them for making my high school experience worthwhile, but I especially thank my best friends. Angelica, I love you! We have been through it all. I'm glad that I have you in my life because I can't imagine life without you. And Ana, you're the best! I love you too. Thank you for having my back and being there for me muahz!!!

Tara Roache

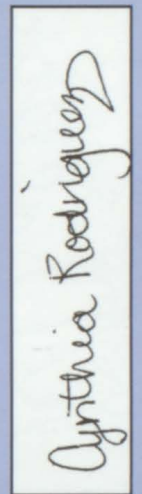

Throughout my Science High years, my many experiences have been full of sad and exciting memories. Whether I lost or gained a friend, I was only strengthened by it, thankfully. These years allowed me to see myself and other things with a different perspective from when I first walked through the doors of high school angry at the world. I am happy to say I will be leaving with a smile, a new outlook and new love for the world and all that occupies it. Of course my two loved best friends Nikita McIntyre and Farzana Katideen will always be dear to my heart for being with me along the way. SHY^ '08 WE MADE IT, FINALLY

As I'm on my way to graduate what crosses my mind is, "My future has just begun!" As a senior, time has flown by. I want to give a shout out to my Best Friends: Sandra and Ana. Sandra you have known me since Pre-school and we could never be closer. Ana, I met you freshman year and you always put a smile on my face; thank you both for making my time here enjoyable. Love you!

Cynthia Rodriguez

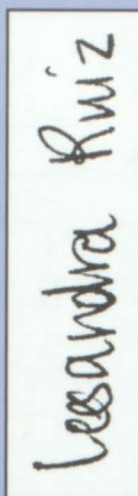

Wow...4 years gone. It feels like just yesterday we were in 40 Rector St. going to Papi's truck. We have so many memories there and that's where the true Science High will always be. To my main girls: Ica, Banana, Mookie, and Lissey - I love you mucho! We've stuck together throughout these four years and we've been through a lot. I wish my bestest Cecilie could've graduated with us but I know we'll all handle our handle in college.

Karimah Rokins

Everyone gets all sappy on these things! Sheesh, why can't we just congratulate each other without crying?! All of you have impacted me in some way so, I thank you. Aim as high as you KNOW (or don't KNOW) you can! Woot woot 2008! Peace and love, kids. I'm out!

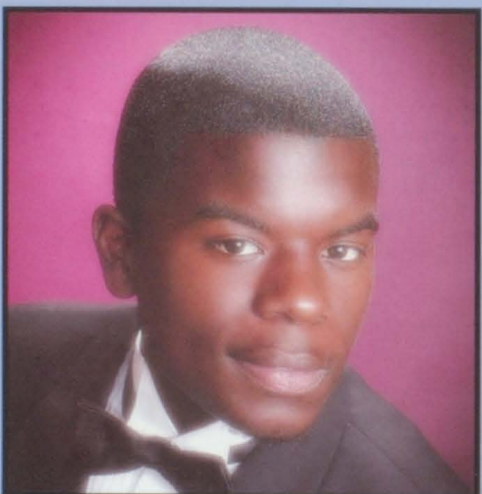

Leesandra Ruiz

Throughout the years I have met many people and teachers, who i can call my friends. School was not only a place for learning, but a second home where we could be problem free. Science Park will always remain a part of my life as well as everyone else. Love ya

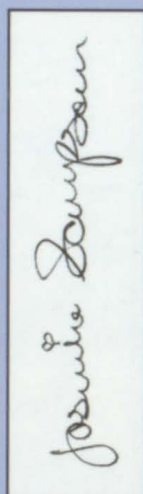

Best of luck to the class of 08'

It seems like only yesterday we were all freshman. Now we're seniors, ready to graduate four years later. We made a lot of memories in the past four years and I hope it will last forever. It was a long, but fast road we made; with all the hard work and hard struggles. One of the best things about high school was the friendship that I made with each and everyone of you. Thanks for all the fun times we had together. I also would like to thank my mother, and teachers who helped me along the way. To the graduating CLASS OF 2008, I wish all of you the best of luck in life. Remember to always keep your head. I love all of you. Thanks for the memories.

First, I'd like to thank God because without him I wouldn't have been able to make it through high school. next I'd like to thank my family for supporting me all my life and never giving up on me. I also wanna give a shout out to all of those that made my days here at Science a good one. To all the teachers that failed me, I would like to thank you too for being the subject of most of my jokes. I'll never forget all of the laughs I had from making jokes all day about my sophomore year in 1st period English class, "man...I don't even have a book talk." Since freshmen year I have seen upperclassmen who could not wait to "get out of here." Now we are the upperclassmen and we are ready to leave. But are we really ready? Or do we all wish we could start over again? Truth is, I don't want to leave, but i have to! All of the people in the Class Of 2008 have impacted me in some way, and I can honestly say that the things I have learned here I would not have learned anywhere else. So I thank everyone for playing the roles that they have played in my life. Starting over may be difficult, but along with everyone else, I am not only ready, but excited about this new phase in our lives. But this is not the end, it is just the beginning. So good luck to everyone! I wish you all a successful future!

High school has all the characteristics of a family; the unnecessary drama, loads of homework symbolizing the wide variety of chores, stress, moms, dads, brothers, and sisters. All these aspects worked together to lead me down the right path, encouraging me to be anything I want to be. Spending time around such a diverse group of people allowed me to mature, realizing who I can depend on. Special thanks to all those people who stand behind me no matter what.

Leaving Our Mark

The Class of 2008 is full of individuals with different viewpoints and strong personalities which is why being a senior class advisor is such a difficult job. In 2007 Mr. Farley stepped up to the plate and accepted the challenge of being in charge of fundraising for the Class of '08, a thankless task when you put into consideration the amount of hours and patience needed for the job. Mr. Farley's easygoing attitude and creative ideas allowed the Class of 2008 to experiment with various fundraisers. He took the time to listen to everyone's ideas and always considered how the entire class could be included to better the experience for all. Although we were faced with conflicts, Mr. Farley was always able to bring us to a peaceful compromise that worked out for everyone in the end.

As juniors became seniors, fundraising began to heat up and the work began to pile up on our solo advisor, so another was brought in to lend a hand. Mr. Mercado joined Mr. Farley as an advisor at the beginning of our senior year to help take the load off Mr. Farley and add his own ideas to the mix. Mr. Mercado focused on ideas that were sure to bring profit to the senior class. One could say he calmed some of our crazy ideas and got the class to focus on making money in a time when we needed it the most. His conservative planning and strong organizational skills were the perfect addition to Mr. Farley's creative ways. Together, they were able to come up with great ideas that produced profit for the Class of 2008. As the advisors of '08, these men exemplified hard work and dedication to the seniors, evident by the stacks of paperwork on their desks and the many conversations and meetings with senior class members. No one knows where this class would have been without our advisors, but what we do know is that they made this a year we shall never forget, and for that, we owe them our deepest gratitude. Mr. Farley, Mr. Mercado – we thank you for all your hard work and wish you the best in your future endeavours.

Smile

When? Remember??? how? Who?

When Science Park High School was just Science High? When Science High wasn't just one building, but a combination of several? How, at one time, we were the biggest class? When we thought that freshmen year was hard? When we didn't have a problem being freshmen and couldn't understand why people disliked us? How every year, our graduating class became smaller? When we first heard Jasmine Lofton-Simpson's voice? When we knew everyone who went to Science, and it wouldn't matter if you bumped into someone in the hallway? When you didn't even care where the guidance office was? When we were in sections? When we didn't have AP Health and AP Physical Education? When we had the trucks? How we used to be ugly? Ms. Porter? How it felt to completely ignore a teacher once the bell rang? When we moved into the new building and realized that what we fought for may not have been something we really wanted? How some people really wanted to be bad, but we all saw them as stupid because bad and Science High are not compatible? How those people got kicked out? How when it rained, it poured - inside *and* out? When Mr. Olivier used to try to rip people? How we'd receive pointless interruptions during valuable class time? When we all tried to run away after our last mid-term and final? How some friendships were born one year, then dead the next? How applying to college was such a hassle? When college applications were finished? When Mr. Harless changed a light bulb without turning it off? When we could go outside for lunch? When we could use the excuse that the locker room was flooded or locked?

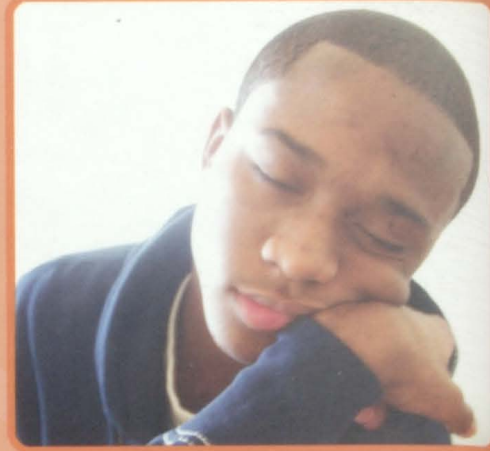

When we wished that high school would soon be over?

Tashyana! Yay you!

Look up Deena! Say cheese!

We love subs!

Khadijat's finally doing work?

Shannon is gorgeous!

Perfect score on the HSPA!

Que linda!

Whatcha reading there, Josh?

"Here's to the nights we
felt alive
Here's to the tears you
knew you'd cry
Here's to goodbye
Tomorrow's gonna come
too soon."

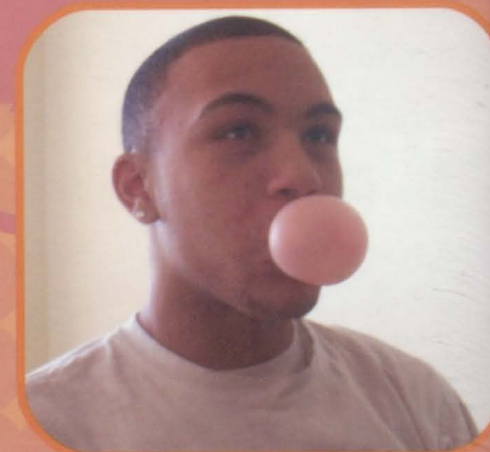

- Eve 6, *Here's to the Night*

"In daylights, in sunsets, in
midnights, in cups of
coffee. In inches, in miles,
in laughter, in strife. In
525,600 minutes - how do
you measure a year in the
life? Measure in love.
Seasons of love."

- Rent, *Seasons of Love*

What's so funny, Dawn?

We can't chew gum? Right...

Beautiful.

AP Calc + 2nd Period = Uncool!

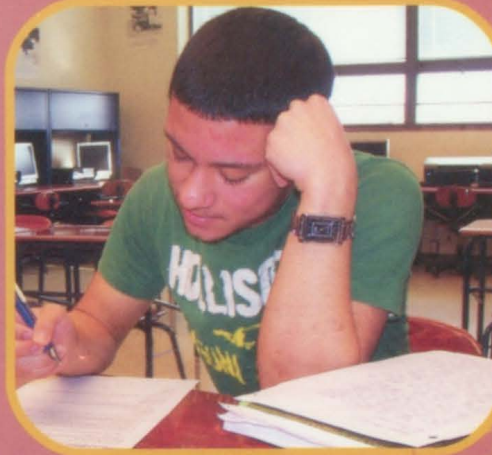

She's #1 for a reason.

Typical Ana.

Taqiyyah's not sleeping? Wow.

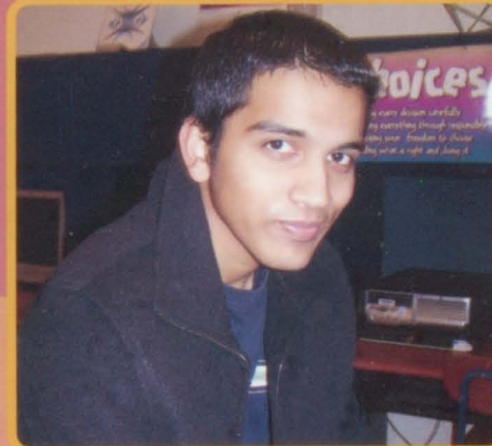

He reads?

"I hope you never look back, but ya never forget,
All the ones who love you,
in the place you left,
I hope you always forgive,
and you never regret,
And you help somebody
every chance you get."

- Rascal Flatts, *My Wish*

He's little, but he's strong!

Don't be shy, Fahim!

Gibby is the coolest!

Our aesthetics were full of surprises!

"And I'll take with me
the memories
To be my sunshine
after the rain
It's so hard to say
goodbye to yesterday."

- Boyz II Men, *It's So Hard to Say
Goodbye to Yesterday*

How surprising. Rhonda's eating.

Something funny happened...

Finally, computers in classrooms!

7-minute locker breaks.

Pre-midterm photo. Happy?

Smile!

Future playwright.

He must be heavy!

"I'll be there to comfort you
Build my world of dreams around
you
I'm so glad that I found you
I'll be there with a love that's strong
I'll be your strength I'll keep holding
on."
- Mariah Carey w/Trey Lorenz, *I'll Be There*

"Kiss today goodbye,
The sweetness and the sorrow.
Wish me luck, the same to you.
But I can't regret
What I did for love, what I did
for love."
- A Chorus Line, *What I Did For Love*

Viteri makes Biology fun!

Did you get in trouble Sam?

I just wanted the juice!

Name this twin! Answer: Stalyn.

Being pensive.

It's hard to focus around Maria!

Cheesing

Sarcasm in the flesh

"When it's cold outside
There's no need to worry 'cause
I'm so warm inside
You give me peace
When the storm's outside
'Cause we're in love I know
It'll be alright
Alright, it's alright."

- John Legend, *Refuge*

Will you forget her laugh?

She's a very vibrant girl.

Tell me what you're thinking.

Someone looks lost.

"I don't wanna forget the present
is a gift
And I don't wanna take for
granted the time you may have
here with me
Cause Lord only knows another
day is not really guaranteed."

- Alicia Keys, *Like You'll Never See Me Again*

BOY'S BASKETBALL

Seniors: Adrian Alcantara, Anthony Baskerville, Robert Byrd, Stanley Elliot, Kason Frierson, Rashid Gaines, Marquise Jefferson, Khalif Jones, Stephen Lighten
Coach: Milton Gaylord

The most successful season in the 23-year-history of the boys' basketball program culminated with an appearance in the New Jersey Tournament of Champions, beginning with a victory over the state Group IV champion, Rancocas Valley, and concluding with the TOC Final versus the #1 team in the nation, St. Anthony High School. The path to the state finals included a Group I Sectional championship over Bloomfield Tech, followed by a win over Cedar Grove in the state semifinal game, and a victory over Salem High School, making Science Park the Group I State Champion. Season highlights included a third consecutive Colonial Hills Conference championship, and a third consecutive championship in the Newark Christmas Tournament in a fiercely contested final with archival University High School. The season also included a first ever Essex County Tournament crown as Science unseated the reigning 12 time champions from Seton Hall Prep. Science Park's 29 - 3 record resulted in a final ranking as the #4 team in New Jersey, and the state's #1 public school team.

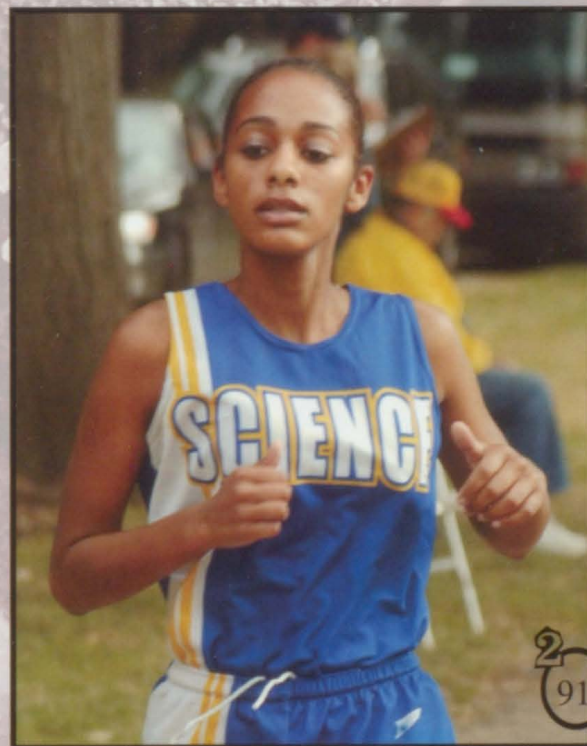

CROSS COUNTRY

Seniors: Charles Alexander, Fahim Anwari, Catia Goncalves, Ladina Lane, Kevonna Ward
Coach: Ms. Crocker

Freshman Adedayo Jobi-Odeneye took first place in the Newark Cross Country City Meet, followed by seniors Ladina Lane in third and Kevonna Ward in fifth. Adedayo also qualified for the cross country state championships. Jobi-Odeneye was named Third team All State for Group I and Second Team All County for Cross Country.

On the boys side, sophomore Rasaki Adewunmi placed third in the Newark Cross Country City Meet and 13th overall at the State Sectional meet. Freshman Robert Mercado placed fifth at the Newark City meet.

Close Up is civics-oriented club that seeks to educate and inspire students to be informed and engaged citizens. In addition to regular club discussion meetings, members participate in a one day trip to the NJ Statehouse in Trenton and a five day trip to Washington DC to study democracy in action and to talk politics with other high school students from around the state and nation.

The SPHS Drama Club THE SCIENCE PARK PLAYERS -- provides an opportunity for all students whether experienced actor or beginner, outgoing or shy to have an enormous amount of fun as they develop performance skills in acting, dance, singing, and directing. Club members learn to use their feelings, energy, sensitivity, and intelligence in the creation of character, and they learn to experience their voices and bodies as instruments. They explore a variety of acting techniques and they perform in improvisations, theater games, monologues, and scenes. Each year the Players present a full-scale production, complete with staging, lighting, costuming, and audience. Our presentations so far have included The Crucible, The Madwoman of Chaillot, South Pacific, and Grease. The Spring 2008 show will be an original production -- a collage of the dramatic, comedic, and musical talents of all the Players.

The Chemistry Club at Science Park High School serves to broaden the intellectual horizons of students with an interest in chemistry. It organizes a monthly lecture series, and invites outside speakers to lecture on topics related to chemistry and career opportunity. Chemistry Club members are required to attend the lectures, which are open to all students. At club meetings on Mondays, the members discuss topics of interest by exploring and reviewing the literature. The topic for this school year is antibiotics. We will explore the classification and mechanism of action of sulfa drugs, the causes and symptoms of peptic ulcer, and the use of antibiotics and H₂ blockers in treating ulcers caused by H. pylori.

Science Park High School is affiliated with the nation's most esteemed recognition organization, the National Honor Society. NHS membership is highly selective and is based on academic achievement, citizenship, leadership and community service. This years NHS is comprised of students who have proved their character and have demonstrated their dedication to our school. The students have made several voluntary contributions to the school and our community, including our annual deliveries of Christmas greetings, participation in the Open Houses, tours of the school, the Guidance Breakfast, Saturday Entrance Testing, and management of Freshman Orientation. In addition, their efforts in collecting items for Thanksgiving Canned Food Drive, and collaboration in the Donate to Soldiers Campaign, which were extremely beneficial to the our community. Lastly, Habitat Newark has become one of the most memorable community service projects for our members. Students assist in building a Habitat for Humanity home to a well deserved Newark resident. Our members do all this without compensation and with a positive, courteous, and enthusiastic spirit.

Science Park High School Team 752 is one of 12 Newark based teams and a well-known team throughout the state. Highly regarded as the best robotics program in the city, this team is a part of a national competition to build a fully functioning robot from scratch and use it to compete with other teams from all around the world. During this time, students are taught to handle power tools, learn problem solving and physics concepts as well as mathematics. Science Park High School's Robotics Team has never failed to bring awards as it has a seven year streak of bringing home Featherweight Champion, Website Design, Entrepreneurship Award, Rookie All-star and the list goes on. In a school for those with exceptional skills, Science Park Robotics continues to produce amazing work, and develop the talent of our students.

Dedicated to the Class of '08

Nature's first green is gold,
Her hardest hue to hold.
Her early leaf's a flower;
But only so an hour.
Then leaf subsides to leaf,
So Eden sank to grief,
So dawn goes down to day,
Nothing gold can stay.

Essence

At first, it was difficult to recognize the bonds that existed between us. Now, it is almost impossible to fathom the absence of that bond. And perhaps "impossible" is the wrong adjective; maybe it is just that we simply do not want to imagine life after Science: a life that may send us in separate directions, a life that may remind us that nothing gold can stay.

We have held on to that hardest hue; we have endured that long but beautiful hour; and now, we are sinking in grief because Robert Frost is right: "nothing gold can stay." But in admitting that he is right, we must all realize that "nothing gold can stay" does not necessarily imply that our metaphoric gold ceases to exist.

Yes, these four years are over - hard as it is to say, it's true. Yet, the greater fact is that they have shaped wonderful individuals; they have created and solidified some of the greatest relationships we have ever had and will ever have; they have given us memories that will never cease to exist. Once we realize this, we understand that our gold is in everything we have gained from these last four years. Only then can we say with conviction that our gold will last forever.

I decided long ago, never to walk in anyone's shadows

If I fail, if I succeed

At least I lived as I believe

No matter what they take from me

They can't take away my dignity

Because the greatest love of all

Is happening to me

I found the greatest love of all

Inside of me

The greatest love of all

Is easy to achieve

Learning to love yourself

It is the greatest love of all
